

BELKIN

2x1 USB Peripheral Switch

Part # F1U201

The Belkin 2x1 USB Peripheral Switch (the Switch) gives multiple computers access to a single USB 1.1-compliant device-such as a printer, camera, scanner, or an external storage device. It offers a convenient design and easy-to-use switching software that gives you immediate access to your USB device. Once connected, your device stays available to all connected computers, eliminating the need for you to unplug and reconnect it to another computer.

Not compatible with OS10.3.x

Advantages

- Features our easy-to-use software and hot key switching
- Includes easy-to-use software interface for Windows and Mac users
- Works with USB 1.1 and 2.0 devices at transfer speeds of up to 12Mbps
- Connects a USB device at up to 30 feet from your computers.
- Comes with a Belkin 1-Year Warranty and free technical support
- Supports both PC and Mac® computers(Win98se, WinME, Win2000, WinXP, MacOS X and higher)
- Supports one USB 1.1-compliant device
- Installs and operates easily
- Includes active-port LED indicators for clear identification of which computer is being used
- Requires no power supply

UPC: 7-22868-43638-7

BELKIN

4x1 USB Peripheral Switch

Part # F1U401

up

The Belkin 4x1 USB Peripheral Switch (the Switch) gives to four computers access to a single USB 1.1-compliant device-such as a printer, camera, scanner, or an external storage device. It offers a convenient design and easy-to-use switching software that gives you immediate access to your USB device. Once connected, your device stays available to all connected computers, eliminating the need for you to unplug and reconnect it to another computer. The Switch is compatible with Windows® 98 SE, Me, 2000, XP, and Mac® OS X.x.

Not compatible with OS10.3.x
